

## **It's about MONSANTO.**

Dear activists, affected people, objectors,

It is getting more and more likely that MONSANTO will become a part of the BAYER conglomerate and then have its headquarters in Germany.

For 38 years we have watched BAYER's actions worldwide, contributed to the coordination of resistance and protest all over the world, supported affected people and documented the conglomerate's crimes. There is no Google search for BAYER that does not show us as one of the first results.

We take protest and resistance from all over the world back to the heart of the company at BAYER's annual general meeting. Since 1982, it has been impossible for BAYER to hold a regular shareholder meeting: both outside and inside the hall, there will be protests by victims and affected people, critics, scientists and journalists - despite police operations, company security and tricks with the agenda, in plain sight of the responsible CEOs and major shareholders, in front of thousands of listeners, small shareholders and journalists. You can find out more about this in our online archive, which is visited by more than 100,000 people per year.

If BAYER swallows MONSANTO, the new MONSANTO bosses should know that we are ready.

That is why we are calling on you now: contact us today! We stand by the affected people, victims and activists in solidarity.

We will not wait until the deal is cut-and-dried. We want to connect today, to collate and distribute information and to confront BAYER's AGM with our demands for reparation, compensation and the immediate end of MONSANTO's crimes. Send us your information, contacts, photos and stories!

We would also like to invite all of you to attend the actions at BAYER's AGM in Cologne, Germany, on 28th April 2017. Please register with us if you want to speak at the meeting. Together, we will show BAYER's responsible people, managers and major shareholders what we think of their crimes.

Let us coordinate our resistance against BAYER and MONSANTO and take it to 'the heart of the beast'. We count on you!

In solidarity,

Antonius Michelmann, Brigitte Hinch, Axel Köhler-Schnura

Coordination against BAYER Dangers (CBG)
